*Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance:

Independent claim 1 and its dependent claims are allowed over prior art of record because the prior art does not teach or suggest the claimed process for fabricating metal interconnects, which includes the claimed features of using a silicon-containing layer as a mask for etching an opening in a dielectric layer then forming a metal silicide layer on the silicon-containing layer by a thermal treatment of a metallic glue layer formed on the silicon-containing layer. The metal silicide layer is then used as an etch stop layer in subsequent process, and later is removed by a cleaning process.

Independent claim 15 and its dependent claims are allowed over prior art of record because the prior art does not teach or suggest the claimed method for removing a metal silicide layer using a solution mixture containing  $\text{H}_2\text{O}_2/\text{H}_2\text{SO}_4/\text{H}_2\text{O}/\text{HF}$ , wherein ratios of  $\text{H}_2\text{O}_2$ ,  $\text{H}_2\text{SO}_4$  and  $\text{H}_2\text{O}$  is 1-10:1-10:1-100 and a concentration of HF is 1-20ppm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
